LOGISTICS • ADVANCED CRATING • SPECIAL CARE

ABOUT

A.L.E. is a family-operated, entrepreneurial private logistics company specializing in secure packaging and transportation of all types of sensitive cargo. Whether it's aerospace parts, electronics, machinery, fine art pieces, or your priceless family heirlooms, our white-glove process is unrivaled when it comes to caring for your items in transit.

WHAT SETS A.L.E. APART FROM COMPETITION?

- We aren't limited to the standard 55 MPH on the freeway like other freight movers
- We are uniformed and professional
- Our fleet is outfitted with live time monitoring systems
- Our ISMP-15 certified crates are custom built with the latest cutting edge technology - our crates assure the item in question arrives how it departed. Our freight has no room for risk.

CORE CAPABILITIES

CLANDESTINE EXPRESS

Our custom fleet offers the clandestine agility that speed box trucks lack. For sensitive freight, our vans can easily maneuver bases, airports and facilities with speed. We can fit where bulky box trucks can't and move faster, safely.

SECURE TRANSIT

Every van belonging to our fleet has been hand designed specifically for moving sensitive items to assure secure transit from pick up to drop off and every step in-between.

SPECIALIZED HANDLING

We ship things that other companies can't or won't. If it's big, heavy, bulky or oddly shaped, it's our specialty!

PROFESSIONAL SERVICES

Our white glove services are affordable and practiced in every department. Whether it be customer service, dispatch, warehouse or field ops, every step in our business model is handled with a white-glove approach.

FAMILY OPERATED

We are a family operated business built from the entrepreneurial vision of "shipping and handling" made better. ALE values quality work and our team works together to get each job done with precision and efficiency.

RATES & CRATES

We generate our rates and quotes based on a set of criteria (included below) that helps us better accommodate the needs for your particular shipment with flexibility to ensure it's within your budget. Whether it's a high-end or everyday item, we're sure we can help.

- Dimensions of the item
- Weight
- Declared Value
- Custom Crating*

*Custom Crating services are also available for your convenience. Prices will vary depending on item criteria. Individual crates are also available for purchase through our online store.
